

## **Silver Spiral**

### **Online Spiral One, 2022-23: Course Dates and Details**

#### **1st Circle 26 & 27 March 2022: THE TEMPLE OF STAR FIRE**

The wheel of the cosmos returns to zero point as the Solstar heads into Aries, the sign of the first fire. Here we meet the Star Goddess as Initiator, as She calls us to awaken the power of Star Fire within. In this circle we will begin to learn the basics of Astrology, reclaiming Mars as the inner Warriress and Understanding the Sun as indicator of soul purpose. We sow our seeds of intention for the new cycle.

#### **2nd Circle 7 & 8 May: THE TEMPLE OF LOVE**

The Solstar crosses the mid-degrees of Taurus, the first Venus ruled sign of the zodiac. Here we look beyond the narrow view of the traditional Venus as Aphrodite archetype perpetuated by history and reclaim Her as Inanna, the powerful, multifaceted Goddess of both Shadow and Light She was originally. In this circle, we will awaken Venus within as we begin to understand the Astrology of self-love, worthiness and relationship.

#### **3rd Circle 25 & 26 June: THE TEMPLE OF MEMNOS**

As the Solstar heads into the Sign of Cancer, we meet the Star Goddess as the ever-birthing Cosmic Mother, She who pulls the tides of the universe and gives birth to galaxies. We swim in the celestial waters of memory, remembering our star lineage. In this Circle we will uncover the mysteries of the Moon and the North and South Node in the birth chart, as we dive into the soul's herstory. We will open our psychic senses, as we begin to awaken the Star Oracle within.

#### **4th Circle 6 & 7 August: THE TEMPLE OF SOUL SOVEREIGNTY**

At this time of year, two Suns rise in the skies, as Sirius the Blue Star rises alongside our golden Solstar. The helical rising of Sirius indicated the beginning of the harvest to our ancient star-watching Ancestors. We honour the Star Goddess as the High Fruitful Mother, and Great Queen of the Cosmos as we work with our Jupiter and Chiron placements to heal ourselves and reclaim our sovereignty, worthiness and abundance.

#### **5th Circle 17 & 18 September: THE TEMPLE OF KARMIC HARVEST**

As the days and nights once more come to equal length we meet The Star Goddess as Queen of Karma, as we reap the harvest of our actions and seek to readdress the balance in all things. We recognise ourselves as the authority of our own destiny, as we uncover the lessons of our Saturn Placement and begin to ground our learnings and develop mastery of our lives and birth charts.

#### **6th Circle 12 & 13 November: THE TEMPLE OF ALCHEMY**

As the Solstar heads into the sign of Scorpio, the alchemist, we dive deep into the shadows of our own psyche, claiming the lost fragments of our souls so that we can move towards wholeness. At this time we meet the Star Goddess as the keeper of the cycles of life, death and rebirth, as we journey to the womb tomb of West Kennet Long Barrow. We will investigate the position of Pluto as the indicator of the evolutionary journey of the soul, and Black Moon Lilith as the shadow feminine.

#### **7th Circle 17 & 18 December: THE TEMPLE OF THE COSMIC WOMB**

As the Solstar crosses the Galactic Centre we immerse ourselves in the celestial void, reconnecting with our soul's purpose and finding our place in the great web. Immersion into the heart of the Star Goddess.

#### **8th Circle 4 & 5 February 2023: THE TEMPLE OF INITIATION**

Self-dedication as a Sistar/Brother of the Stars as Sol glides through Aquarius, the sign of the Star Goddess and Grail Bearer. Reawakening the vision of your Cosmic Priestess self.
